SUMMARY

Full-Stack and Frontend Developer who has built AI-powered, responsive web applications serving 100+ users. Skilled in modern frontend development and scalable backend services. Hands-on experience integrating Generative AI solutions using the Gemini API for real-time, context-aware features, and third-party APIs for production-grade integrations. Strong foundation in Data Structures & Algorithms, OOP, Computer Networks, and Agile development practices.

EDUCATION

Chandigarh University, Punjab	2023 – 2027
Bachelor of Engineering in Computer Science	
DBMS Career Academy, Jamshedpur	2022 – 2023
Senior Secondary	
DBMS English School, Jamshedpur	2019 – 2020
Secondary	

PROJECTS

Meditatva | AI Healthcare Platform | [medi-tatva.vercel.app](#) 2025 – 2026

- Developed a full-stack AI healthcare platform using **React.js**, **TypeScript**, and **REST APIs**, automating appointment booking, pharmacy search, and medical-record management to streamline healthcare workflows and reduce manual processing.
- Integrated **Gemini API** with asynchronous API handling to automate context-aware health recommendations, enabling faster query processing and reducing repetitive manual interactions across **3+ core features**.
- Built a reusable, component-based UI using **React.js** and **Tailwind CSS**, improving development efficiency through shared components and responsive layouts while minimizing repetitive UI implementation across mobile, tablet, and desktop.

Tech: React.js, TypeScript, Tailwind CSS, Gemini API, REST APIs

VOCA | AI Communication Analysis System | [voca-rouge.vercel.app](#) 2024 – 2026

- Developed an AI-powered interview evaluation platform using **Node.js**, **Express.js**, **JavaScript**, and **REST APIs**, automating scoring across **5 parameters** (clarity, tone, pace, gesture, vocabulary) and improving evaluation efficiency by **60%**.
- Built scalable **Node.js** backend services with real-time multimodal processing pipelines, reducing server response latency by **30%** and cutting manual interview review time from **30 to 12 minutes**.
- Integrated **5+ REST APIs** for speech, gesture, and vocabulary analysis, generating automated scored reports with **85%+ assessment accuracy** and streamlining the overall interview evaluation workflow.

Tech: Node.js, React.js, JavaScript, REST APIs

Ghoomo Firoo | Full-Stack Travel Booking Platform 2023 – 2024

- Developed a full-stack travel booking platform using **Java**, **Spring Boot**, **Spring Data JPA**, **MySQL/H2** automating flight/hotel discovery and itinerary generation to improve trip-planning efficiency by **65%**.
- Integrated **Amadeus Flight and Hotel APIs** using **OAuth2** client-credentials with token caching, reducing authentication overhead and improving real-time search performance by **30%** across **10+ REST endpoints**.
- Engineered a budget-optimization and server-side filtering engine across price, duration, stops, and rating, automatically generating cost-effective itineraries and reducing manual booking effort by **70%**.

Tech: Java, Spring Boot, Spring Data JPA, MySQL/H2, JavaScript, Amadeus API

TECHNICAL SKILLS

- Languages:** Java, JavaScript, TypeScript, HTML, CSS, SQL
- Frameworks:** React.js, Next.js, Node.js, Express.js, Spring Boot, Spring Data JPA, Thymeleaf, Tailwind CSS
- Databases:** MySQL, H2 **Tools & APIs:** Git, GitHub, Postman, REST APIs, OAuth2, Gemini API, Amadeus API
- Core CS:** Data Structures & Algorithms, OOP, Computer Networks, Agile **Soft Skills:** Problem Solving, Team Collaboration, Adaptability

CERTIFICATIONS

- | | |
|---|--|
| • AWS Certified Solutions Architect – Associate | Udemy, Nov 2025 |
| • Spring and Angular Full Stack Developer | Infosys Springboard, Aug 2025 |
| • Artificial Intelligence – Samsung Innovation Campus | Telecom Sector Skill Council, Dec–Apr 2026 |
| • Blockchain and its Applications | NPTEL / IIT Kharagpur, Jan–Apr 2025 |
| • Relational Database Administration (DBA) | IBM / Coursera, Mar 2025 |

ACHIEVEMENTS

- 2nd Runner-Up – NIT Hamirpur Hackathon
- 3rd Position – Chase the Code 2.0 Hackathon
